

FIREWORK DISPOSAL

We hope that you have a safe and eventful Fourth of July. We would like to pass on some information on proper firework disposal after your celebration.

- **Please do not place hot fireworks in the trash receptacle. Wet down used fireworks with a hose or place them in a bucket of water to extinguish any hot spots. Melted totes are not covered under warranty and will cost the property owner/tenant \$125.00 for a replacement tote.**
- **All used fireworks should be bagged and put in the tote for removal. Most of the city is on automated side load routes and these drivers do not exit the vehicle and typically will not service anything outside of the tote.**
